

## **THOMAS THE TANK IS BACK IN THE FOREST**

That cheeky chappie Thomas the Tank Engine is due back in the Forest of Dean at the Dean Forest Railway from Friday 20<sup>th</sup> August to Sunday 22<sup>nd</sup> August inclusive, but, fortunately, Sir Topham Hatt, the Fat Controller, will be in attendance to keep matters in hand.

This is a wonderful fun packed day with three different train rides, face painters, Punch and Judy shows, miniature railway, childrens' roundabout, plus on train entertainment. The Imagination Station hosts children's colouring, desktop toys, Thomas temporary tattoos, Thomas stories and Thomas DVD's.

Watch out for the live re-enactments with the Troublesome Trucks and Devious Diesel causing all sorts of trouble for Thomas and the Fat Controller.

There is a large free car park at Norchard near Lydney, award winning museum, well stocked shop with probably the best "Thomas" section in the West of England and Wales and also Platelayers' Café dispensing a range of healthy food and soft drinks.

All the above attractions are included in the admission price and booking on line will save you money. Please go to our website at [www.dfr.co.uk](http://www.dfr.co.uk) to find out more and to make advance bookings. Our shop, tele: 01594 845840, can also provide all the information you may need.
