Forest features on iPhone app

TOURISTS can use cutting edge technology to check out the Forest of Dean using a new iPhone app.

Towns, villages and places of interest are featured on Gloucestershire's first app which has now been downloaded more than 500 times.

There is also up-to-date information on where to stay, what to do and special offers.

The app has been developed in conjunction with the council's tourism team and Explore Gloucestershire.

uknowfootball.co.uk

Councillor Patrick Molyneux (Con, Hewlsfield and Woolaston), cabinet member for regeneration and planning said: "This partnership is an exciting move for the Forest of Dean, providing global coverage and reaching the ever-increasing number of people using their phones to find and share information.

"In time, the application will be available to all smart phones."

The Forest of Dean has its own page on the application, which features pictures of key locations around the area, such as Cannop Ponds, Beechenhurst and Symonds Yat.
