

National Forest Food Guide

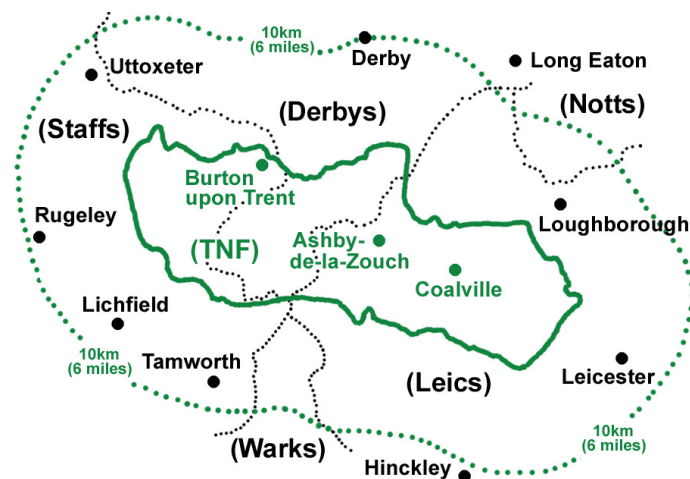

Issue No.27 from the National Forest Food Network – Winter 2010/11

Enjoy food fresh from the National Forest!

Inside this bulletin you will find my personal guide to the delicious local produce available in the National Forest and in nearby areas. I hope that you will browse through it, and perhaps try some out for yourself.

The Guide itself is in two parts – the first part is a listing of all of the producers and stockists of local food that I've found so far, so you can easily see what's available near to where you live or work. This is organised by towns into the following larger areas:

- The National Forest (TNF)
- Nearby In Derbyshire (Derbys)
- Nearby in Leicestershire (Leics)
- Nearby In Nottinghamshire (Notts)
- Nearby in Staffordshire (Staffs)
- Nearby in Warwickshire (Warks)
- Regional food, sold locally (Reg)

For the purposes of this Guide, “nearby” is within 10km (6 miles) of the boundary of the National Forest. The Regional section only includes more distant suppliers where similar foods are not produced locally, or if they sell direct at local markets.

The second part of the Guide is an index of all the different foods produced in the area, with details of where you can buy them. Whatever you're after, find out who sells it, look them up in Part 1, and try our National Forest food for yourself!

I'm always looking out for news of other producers or stockists, or tea-rooms, cafés, pubs, restaurants, B&Bs, guest houses or hotels who serve food made from local ingredients. Please send any information or feedback to:

food@nationalforest.org

There is no charge for plain text entries in the guide, but you must be local, and produce or use locally sourced ingredients. For additional boxed entries to your own design, please contact the author at the address above. The Guide can be downloaded free of charge from the National Forest Company website at:

www.nationalforest.org/visit/food

You are welcome to forward the National Forest Food Guide (as downloaded) to anyone interested in local food, or to print and distribute hard copies providing no charge is made for these. For any other use, please contact the author at the address above.

Whilst every attempt is made to ensure that the information in this Food Guide is accurate, please check with producers

themselves, particularly for specific claims such as “organic”, “vegetarian”, etc., or before making a special journey.

The NFFN Food Guide is published four times each year in late March, June, September & December.

Supermarket Supplier Codes – Where local producers supply the national market through supermarkets' “own brand” products and their supplier codes are known, these are indicated in brackets after the supermarket name in the producers entry, and after the suppliers name in the supermarket entry. (Supplier codes can generally be found somewhere on the labelling)

Websites I've found useful: www.localfoodheroes.co.uk, www.country-markets.co.uk, www.localfoodadvisor.com, www.bigbarn.co.uk, www.nfuonline.com,

New or amended entries are highlighted in red for one issue only

Part 1 – By town or village
