

A fresh way forward

Changes to Coventry bus services

From 26th February 2012

Changes to Coventry bus services from Sunday 26th February 2012

From Sunday 26th February 2012 there will be changes to most bus routes, numbers and timetables across Coventry.

The changes will introduce many frequency improvements on Coventry's busiest bus routes. The network will be simpler to understand and bus operators will begin to colour code some of their main bus services in the city on vehicles and new passenger information.

What are my new buses?

This leaflet is a general guide to the new service numbers and frequencies from February 26th, just look for your current bus route on the orange box, and the new service numbers are shown in the blue box, along with a guide to the new bus routes and frequencies.

How do I get more information?

New timetables will be available from February 11th. Centro and bus operators are holding a series of exhibitions to distribute this information across the city. Details of the exhibitions can be found in the back of this leaflet.

You can also go to your travel shop where copies of timetables will be available, or log on to networkwestmidlands.com/busreview to download copies and get the latest updates.

The information in this leaflet is correct at time of going to print.

Network Coventry

Network Coventry is the name that connects all public transport in the city metropolitan area. It is part of Network West Midlands, which also consists of Birmingham, Dudley, Sandwell, Solihull, Walsall and Wolverhampton.

Centro, the West Midlands Integrated Transport Authority, is responsible for developing and promoting public transport in the region.

Centro works closely with West Midlands' district councils and the private companies who operate bus, train and Metro services. Centro also provides subsidy to bus companies to operate all or some journeys on some routes.

All partners in Network West Midlands are working together to provide better passenger information and to invest in improved facilities and services.

The information in this leaflet is correct at time of going to print.
