

Responsible Conferencing at Forest Pines Golf & Spa Hotel

For a conference venue that offers deluxe, well thought out facilities, a quiet and stunning location, whilst having less environmental impact than other venues, Forest Pines has a unique philosophy.

After a £10 million makeover, Forest Pines now has an outstanding, purpose-built conference centre for 370 people. To celebrate the completion of this magnificent resort and demonstrate a commitment to environmental responsibility, Forest Pines is offering a great conference package. Any event held at the venue before the 31st March 2009 will directly contribute towards the conservation of the 180 acre woodland, plus Forest Pines will off-set the carbon footprint of your delegates' travel to the area.

For every event enquiry you place for the until 31st March 2009 with a value of £5,000 or more, Forest Pines will plant a sapling tree on the Forest Pines estate and name it after your company or organisation.

When you confirm your booking, for every 50 delegates that attend Forest Pines will make a donation to offset 10,000 car miles - enough to cover the CO2 emissions of the average delegate's journey.

The Forest Pines Resort is a premier conference venue and deluxe four star hotel with 188 bedrooms, leisure facilities with a fully-equipped health and beauty club, plus a 27 hole golf course, nestled in 190 acres of mature woodland, with beautifully landscaped gardens.

Special rates available until 31st March 2009 24 hour delegate rate from £129.00, Day delegate rate from £34.00.
