

The Deep - Multi Award Winning Conference Venue

MULTI AWARD WINNING CONFERENCE VENUE

The Deep, Hull's iconic visitor attraction, is delighted to announce that they have become the first business in Yorkshire to be awarded the Gold Award in the Green Tourism Business Scheme. They have also recently scooped the silver award for Sustainable Tourism at the Enjoy England Awards 2009.

Colin Brown, Chief Executive of The Deep, said: "We are thrilled to have won the gold award in the Green Tourism Business Scheme. It means a lot to us because sustainability is at the heart of all our activities; from our work with the Great White sharks to our Manta Ray conservation project, working with the Cousteau Foundation in the Red Sea.

"We believe that in difficult times, being environmentally friendly makes good business sense and we hope this award will help us spread this message."

If you are looking for a diverse green venue for your next event, why not treat your delegates to a corporate hospitality event with a difference? Host a drinks reception at The Deep. Wine and dine your VIP's within this unique and visually stunning venue. Down on the ocean floor or high above the waves in the glass observatory, keep your guest's entertained with a bespoke dive show, themed to promote your event, amongst the sharks in the Endless Oceans Gallery.

Day time meeting and conference facilities are also available in The Deep's adjacent business centre with its dedicated support services.

The Green Tourism Business Scheme is the leading sustainable tourism certification scheme in the UK, honouring businesses that demonstrate high levels of commitment in protecting the environment and promoting sustainable tourism with bronze, silver and gold awards.

Award winners are scrutinised on more than 145 separate measures by qualified advisors before being appointed the relevant award, making it one of the most scrupulous green accreditation schemes in the world with around 2,000 members.
