# Taste the best of Sussex Vineyards in Wealden

Wealden District is situated in the south east corner of England, one of the sunniest regions of the British Isles. It has seen a boom in wine growing over the past five years. Wealden now boasts over 20 vineyards making the most of the beautiful rolling Sussex countryside.

The lime chalk soil, prevalent throughout Sussex, is the same soil type found in the Champagne region of France. It contributes to Wealden's ability to produce quality grapes for sparkling wines. A cooler climate than France helps preserve the acidity in the grapes that is needed to make the top tier of sparkling wines.

The classic Champagne varieties of Chardonnay, Pinot Noir and Pinot Meunier thrive in the Wealden terroir. Other grape varieties, Bacchus, Pinot Gris and Pinot Noir; are being cultivated for the production of still wines. These are mostly aromatic whites but some rosé and red wines are also being made as the area becomes one of the most significant wine growing regions in the country.

**Many of the vineyards in the area welcome visitors and offer tours and tastings. Please note some are not commercial and may be appointment only, so please contact them before your visit for full details and opening times.**
