We offer lunch and dinner delivery in our local delivery zone (on website), customers can pay over the phone or at the door with contactless payments. No cash. On request, we will call when food arrives and leave at the door. We try to always have a delivery person on staff with the benefit of a bicycle recently donated to us from an East Sheen family but we occasionally during off-peak times will not have this service available, and would recommend ordering through Deliveroo in those cases
